Chinese company to locate U.S. Headquarters in Suffolk, Virginia

The Suffolk Economic Development Department announced today that Shandong Zhangqiu Blower Co., Ltd, a manufacturer of positive displacement blowers, has decided to establish its U.S. Headquarters in Suffolk, Virginia. The Hampton Roads Economic Development Alliance (HREDA) assisted Shandong Zhangqiu Blower Co., Ltd. with its decision.

Eurus Blower, a division of Shandong Zhangqiu Blower Co., will begin operation of its 2,500 square foot warehouse and sales office in January, 2009, which will employ three people at the onset. They will be located at 110 Virginia Ham Drive in the Shingle Creek Building.

Shandong Zhangqiu Blower is the largest manufacturer of positive displacement blowers in China and is located in the Mingshui Economic Development Zone, Zhangqiu City, Shandong Province of China. According to Mr. Yq Gao, the Vice Manager of the venture in Virginia, the company has 40% of the positive displacement blower market share in China and exports its products to more than 40 countries.

Mr. Shihua Liu, the Manager of the company in Virginia emphasized that "Hampton Roads and Suffolk was an ideal location for their U.S. headquarters because of the central location along the East Coast as well as the excellent port facilities."

"Eurus Blower is a great addition to the growing number of international companies that are locating here in Suffolk due to our strategic location to the Port." said Suffolk Mayor Linda Johnson. "This facility will provide Eurus Blower with an excellent opportunity to grow and expand. We look forward to building a long lasting relationship with them."

Shingle Creek is an 8,000 square foot, newly renovated office/industrial facility, which features an on-site mini storage component. If you are interested in finding out additional information about Shingle Creek please contact Tony Collins, Axis Development Co., at 757.440.7929.
